Dear Bartlett residents,

I am sending this letter out to keep you informed on the Bartlett St. project. I understand it can be frustrating having construction going on in front of your home for a few months. I want to explain what all has incurred and the plan going forward.

When the Village found out that the storm line going south from Spring St. was a lot smaller than what was on any of the Village maps. It was decided to remove and install a larger line. An extra catch basin was also added on the corner of Mill and Bartlett, along with roughly 155' more of curb.

With all the extras added. It pushed paving back toward Thanksgiving. With the current weather conditions. The paving company cannot pave per ODOT standards. It was decided to wait till spring to do the paving, unless the weather conditions improve.

I apologize for any inconvenience having a tore up road can bring. Come springtime you will be able to roller skate on it.

Anthony M. Taylor
Village of Bremen Mayor
